

Formulation Offerings

Solid Dosage

Annual Capacity

- Tablets - 2 Billion
- Capsules - 300 Million (expandable to 600 Million)

Production Capacity

- Seven Granulation Suites - Batch size 10 to 1000kg
- Eight Compression Suites - 10 Million per shift
- Five Coating Suites - Sugar, Film and Enteric; Aqueous and Solvent-based
- 18" to 60" autocooters
- Two Encapsulation Suites - Powder and pellet filling

Batch Size

- Up to 20 Kilos in pilot plant
- 80 - 480 Kilos in production plant
- Blending to 1000 Kgs

Packaging

- Blister - PVC, PVC/PVdC, Alu/Alu
- Bottle
- Bulk
- Strip
- Primary packaging area air filtered and conditioned to 0.3 μ
- Individual and dedicated air handling units with pressure cascade
- Purified water by Ultrafiltration, Reverse Osmosis and Electro-deionization to BP/EP/USP standards
- Ability to handle manufacture and packaging of moisture-sensitive products (<25% RH)
- Seven Packing Suites

Regulatory Status

- WHO-GMP certified
- FDA inspected (2016)
- No beta-lactams, biologicals, cytotoxics, or hormones handled on site

Fully-Equipped Analytical and Formulation Development Laboratories
